

NSE6_FML-7-2 Fortinet NSE 6 - FortiMail 7.2 Exam Guide

Your Path to Fortinet NSE 6 Certification

Are you looking to boost your career in *IT security*? Getting the **Fortinet NSE 6 certification** can significantly enhance your skills and marketability. This certification focuses on **FortiMail 7.2**, a powerful tool for *email security*. Let's explore how you can effectively prepare for the [NSE6_FML-7-2](#) exam.

Understand FortiMail 7.2 Features

Before diving into studies, familiarize yourself with **FortiMail 7.2 features**. This includes:

Spam filtering and antivirus protection.

Email encryption options.

Advanced reporting tools.

Integration with FortiGate devices.

Having a solid grasp of these features will prepare you for practical scenarios you may encounter during the exam.

Utilize a NSE6_FML-7-2 Study Guide

A good study guide is crucial for your preparation. Look for resources that include:

Exam objectives and structure.

Practice questions to track your knowledge.

Tips on managing your exam time effectively.

Your **study guide** should be your roadmap, guiding you through complex topics step-by-step.

Consider Fortinet FortiMail Training

If you're serious about passing the exam, consider enrolling in **Fortinet FortiMail training courses**. These courses typically cover:

Installation and configuration of FortiMail.

Best practices for email security.

Hands-on labs for real-world experience.

Training provides you with a structured approach, making learning easier and more efficient.

Practice with NSE6_FML-7-2 Exam Dumps

Exam dumps can be a valuable resource. They offer past questions that can help you understand the exam format. When using **exam dumps**:

Focus on understanding the questions rather than memorizing answers.

Check the reliability of the source before downloading.

Combine them with other study methods for best results.

The key is to practice regularly, as repetition enhances retention.

Follow a FortiMail Setup Guide

Understanding how to set up **FortiMail 7.2 system** is essential. A setup guide can help you learn how to:

Install the software on your system.

Configure user accounts and security settings.

Integrate with your existing email system.

Getting hands-on experience with the setup will solidify your knowledge and skills.

Stay Updated and Join Communities

Lastly, stay connected with *industry professionals*. Join forums or groups that focus on **Fortinet technologies**. This will help you:

Gain insights from experienced professionals.

Stay updated on new features and best practices.

Share tips and resources with peers.

Networking is not only beneficial for your studies but also for your career growth.

Final Thoughts

Preparing for the [NSE6_FML-7-2 exam](#) requires dedication and the right resources. Use this guide to structure your study, understand essential FortiMail features, and engage with the community. With hard work and focus, you will be on your way to obtaining your **Fortinet NSE 6 certification!**

Version: 4.0

Question: 1

Refer to the exhibits showing SMTP limits (Session Profile — SMTP Limits), and domain settings (Domain Settings, and Domain Settings — Other) of a FortiMail device.

Session Profile—SMTP Limits

Session Profile	
Profile name	Example_Session
Comment	
 SMTP Limits	
Restrict number of EHLO/HELOs per session to	3
Restrict number of email per session to	10
Restrict number of recipients per email to	500
Cap message size (KB) at	51200
Cap header size (KB) at	10240
Maximum number of NOOPs allowed for each connection	10
Maximum number of RSETs allowed for each connection	20

Domain Settings

FortiMail

Domain name

Relay type

SMTP server Port [\[Test...\]](#)

☐ Use SMTPS

Fallback SMTP server Port [\[Test...\]](#)

☐ Use SMTPS

☐ ☐ Relay Authentication

Domain Settings—Other

Other

Webmail theme

Webmail language

Maximum message size (KB)

SMTP greeting (EHLO/HELO) name (as client)

IP pool Direction

☐ Remove received header of outgoing email

☒ Use global bayesian database

☐ Bypass bounce verification

☒ Email continuity

Which message size limit in KB will the FortiMail apply to outbound email?

- A. 204300
- B. There is no message size limit for outbound email from a protected domain.
- C. 10240
- D. 51200

Answer: D

Explanation:

Question: 2

A FortiMail device is configured with the protected domain example.com.

If none of the senders is authenticated, which two envelope addresses will require an access receive rule? (Choose two.)

- A. MAIL FROM: support@example.org RCPT TO: marketing@example.com
- B. MAIL FROM: mis@hosted.net RCPT TO: noc@example.com
- C. MAIL FROM: accounts@example.com RCPT TO: sales@biz.example.com
- D. MAIL FROM: training@example.com RCPT TO: students@external.org

Answer: A, B

Explanation:

Question: 3

Refer to the exhibit, which shows a topology diagram of two separate email domains.

Which two statements correctly describe how an email message is delivered from User A to User B? (Choose two.)

- A. mx.example1.org will forward the email message to the MX record that has the lowest preference.
- B. User B will retrieve the email message using either POP3 or IMAP.
- C. User A's MUA will perform a DNS MX record lookup to send the email message.
- D. The DNS server will act as an intermediary MTA.

Answer: A, B

Explanation:

Question: 4

Refer to the exhibit which shows the output of an email transmission using a telnet session.

```
220 mx.internal.lab ESMTP Smtpd
EHLO 10.0.1.10
250-mx.internal.lab Hello [10.0.1.10]
250-SIZE 10485760
250-DSN
250-AUTH LOGIN PLAIN DIGEST-MD5 CRAM-MD5
MAIL FROM: <extuser@external.lab>
250 2.1.0 <extuser@external.lab>... Sender ok
RCPT TO: <user1@internal.lab>
250 2.1.5 <user1@internal.lab>... Recipient ok
DATA
354 Enter mail, end with "." on a line by itself
From: External User 1 <extuser@external.lab>
To: Mail User 1 <user1@internal.lab>
Date: 30 Jun 2021 12:24:54 +0100
Subject: Hello, World!
The quick brown fox jumped over the lazy dog.
.
250 Message accepted for delivery
QUIT
221 mx.internal.lab closing connection
```

What are two correct observations about this SMTP session? (Choose two.)

- A. The SMTP envelope addresses are different from the message header addresses.
- B. The "250 Message accepted for delivery" message is part of the message body.
- C. The "Subject" is part of the message header.
- D. The "220 mx.internal.lab ESMTP Smtpd" message is part of the SMTP banner.

Answer: C, D

Explanation:

Question: 5

Which two features are available when you enable HA centralized monitoring on FortiMail? (Choose two.)

- A. Policy configuration changes of all cluster members from the primary device.
- B. Mail statistics of all cluster members on the primary device.

- C. Cross-device log searches across all cluster members from the primary device.
- D. Firmware update of all cluster members from the primary device

Answer: B, C
