

# Ace Your 1Z0-1067-23 Exam: *Oracle Autonomous Database Cloud 2023 Professional*

So, you want to become an **Oracle Autonomous Database Cloud 2023 Professional**? That's awesome! This guide helps you understand the **1Z0-1067-23 Exam** and *how to prepare*. No confusing stuff, just clear info.

## Understanding Exam Topics

The **1Z0-1067-23 Exam Topics** cover a lot. It's important to know what's on it. This exam tests your knowledge of *Oracle Autonomous Database*. You need to understand how it works, how to use it, and how to manage it.

## Effective Study Planning

First, find a good **1Z0-1067-23 Study Guide**. A study guide can give you a good overview. You can also find **1Z0-1067-23 Sample Questions** online. Practicing with these questions is *super helpful*.

Many people look for **Free 1Z0-1067-23 Questions** to get started. While these can be useful, remember to use *reliable sources*. Focus on understanding the concepts, not just memorizing answers. Don't waste time on **1Z0-1067-23 Exam Dumps** - they won't help you learn!

Think about your **Autonomous Database Certification Path**. This exam is a step towards a bigger goal. How does it fit into your overall career plan?

## Valuable Training and Resources

Consider **Oracle Cloud Autonomous Database Training**. Official training can give you a solid foundation. These courses are designed to help you understand all the important concepts. Also, research **Autonomous Database Features**. Knowing these features inside and out is key.

### Resources Checklist:

- Official Oracle Documentation
- *Online Forums and Communities*
- Practice Exams

## Exam Day Prep

Knowing the **1Z0-1067-23 Exam Objectives** is critical. Make sure you understand each objective. Check the **1Z0-1067-23 Exam Cost** so you are prepared for that investment. It's also good to know the **1Z0-1067-23 Retake Policy**, just in case. But let's aim for passing the first time!

**Tip:** Focus on understanding the *underlying concepts*. This will help you answer questions even if you haven't seen them before.

## The Bigger Picture

Earning an **Oracle Cloud Certification** comes with great benefits. Understand the **Oracle Certification Benefits**. It can boost your career and show employers you have valuable skills.

### Benefits include:

- Increased earning potential
- *Improved job prospects*
- Enhanced credibility

## Is This the Right Certification For You?

Want to find the **Easiest Oracle Certification**? While this exam isn't necessarily the easiest, it's a valuable one. But remember to think about the long term.

## The Key to Success

The key to **How to Pass 1Z0-1067-23** is simple: study hard, practice often, and understand the material. Good luck!

### Final Thoughts

Remember to stay focused and persistent in your preparation. The *Oracle*

*Autonomous Database Cloud 2023 Professional* certification is within your reach!

# Real Exam Questions 2025

Below given questions are for demo purposes only. **The full version** is up-to-date and contains actual questions and answers.

## Why Choose CertKillers?

**Actual Exam Questions:** We provide real exam questions updated regularly.

**Exam Dumps:** Downloadable PDFs with comprehensive questions and answers.

**Weekly Live updates:** Study Material questions and answers – Live updates.

**Practice Tests:** Practice tests and VCE PDF to assess your readiness.

**Multi-Lingual Support:** Full Version products available for download in all popular languages.

**Success Guarantee:** Pass your exam on the first attempt or get a refund.

**Up-To-Date Test Questions:** Up-to-Date Test Prep Questions that cover 2025 syllabus.

**Instant Download:** Instant download after successful payment.

# Version: 4.0

## Topic 1, Multiple Choice Questions

---

### Question: 1

---

You have created several block volumes in the us-phoenix-1 region in a specific compartment. The compartment can be identified by the following Oracle Cloud Infrastructure (OCI) unique identifier, or ocid1.compartment.oc1.phx..exampleuniqueID Your manager has asked you to leverage the OCI monitoring service and write a metric query showing all read IOPS at a one-minute interval, filtered to this compartment and aggregated for the maximum. Which metric query will you create?

- A. lopsRead[lm]{compartmentId = 'odd1.compartment.oc1.phx..exampleuniqueID'}.grouping().mean()
- B. lopsRead[lm]{compartmentId='ocidl.compartment.oc1.phx..exampleuniqueID'}.max()
- C. lop-sWrite[lm]{compartmentId=Hocidl.compartment.oc1.phx..exampleuniqueID'}.mean()
- D. lop-sRead[lm{compartmentId='ocidl.compartment.oc1.phx..exampleuniqueID'}.groupIng().max()

---

**Answer: D**

---

Explanation:

---

### Question: 2

---

The general syntax for an IAM policy is: Allow <identity\_domain\_name>/<subject> to <verb> <resource-type> in <location> where <conditions> Which two are valid values for <location>?

- A. tenancy
- B. availability-domain aBCD:us-phoenix-1
- C. compartment MyCompartment
- D. security-zone MyZone
- E. region us-phoenix-1

---

**Answer: A, C**

---

Explanation:

---

### Question: 3

---

All the developers in a DevOps team are using the same compartment called 'devops'. There are two IAM groups: 'group-devs' and 'group-ops'. Which of the following IAM policy will give users in both these groups access to manage all resources in the compartment?

- A. Allow group group-dev, group-ops to manage all resources in compartment devops.

- B. Allow group /group\*/ to manage all resources in compartment devops.
- C. Allow any-user to manage all resources in compartment devops where any {re-request.group=group-dev,group-ops}.
- D. Allow any-user to manage all resources in compartment devops where request.group= /group\*/.

---

**Answer: A**

---

Explanation:

---

**Question: 4**

---

You have a group of developers who launch multiple VM.Standard3.Flex compute instances every day into the compartment Dev. As a result, your Oracle Cloud Infrastructure (OCI) tenancy quickly hits the service limit for this shape, and other groups can no longer create new instances using the VM.Standard3.Flex shape. Therefore, your company issues a new mandate that the Dev compartment must include a quota that allows the use of only 20 VM.Standard3.Flex OCPUs per availability domain, without affecting any other compartment in the tenancy. Which quota statement would you use to implement this new requirement?

- A. set compute-core quota standard3-core-count to 20 in compartment dev where re-request.region = us-phoenix-1
- B. zero compute-core quotas in tenancy set compute-core quota standard3-core-count to 20 in tenancy dev
- C. zero compute-core quotas in tenancy set compute-core quota standard3-core-count to 20 in compartment dev
- D. set compute-core quota standard3-core-count to 20 in compartment dev

---

**Answer: D**

---

Explanation:

---

**Question: 5**

---

An insurance company has contracted you to help automate their application business continuity plan. They have the application running in eu-frankfurt-1 as the primary site and uk-london-1 as a disaster recovery site. Normally they have a DNS A record associated with the IP address of the primary endpoint in eu-frankfurt-1. In the event of a disaster, they use OCI DNS Zone Management to update the A record and replace it with the IP address of the endpoint in uk-london-1. How can you automate the failover process? (Choose the best answer.)

- A. Create a Health Check that evaluates both regional endpoints. Create a Traffic Management Steering policy with Failover type and associate it with the Health Check.
- B. Provision a Load Balancer in Frankfurt and associate it with the A record in DNS. Create a backend set with backend servers from both eu-frankfurt-1 and uk-london-1 regions.
- C. Create a Traffic Management Steering policy with Load Balancer type and add both eu-frankfurt-1 and uk-london-1 endpoints. Attach the Traffic Management Steering policy to the A record.
- D. Create a Traffic Management Steering policy and attach it to a backend servers from both eu-frankfurt-1 and uk-london-1 regions.

---

**Answer: A**
